Purbalingga | 082325439854 | evanrafif45@gmail.com | [linkedin.com/in/evanrafifpradana](https://www.linkedin.com/in/evanrafifpradana)

Highly driven Informatics Engineering fresh graduate from Telkom University with a proven track record of blending technical expertise with strong operational leadership. Demonstrated cross-functional capabilities through guiding students as a Software Construction Laboratory Assistant and orchestrating large-scale logistics for "Todays 2025," the premier steering by BEM KEMA Telkom University Purwokerto campus event. Adept at front-end development, data analysis, and coordinating complex projects. Ready to leverage analytical problem-solving skills and hands-on operational experience to drive impactful results in a fast-paced professional environment.

EDUCATION

Bachelor's Degree, Informatics Engineering Telkom University Campus Purwokerto - GPA 3.75 / 4.00 - Major in Informatics Engineering. - Thesis on "Fine-tuning IndoBERT Model for Sentiment Analysis and Comparative Study of Optimizers".	Sept 2022 - Feb 2026
---	-----------------------------

PROFESSIONAL EXPERIENCE

Frontend Web Developer Intern PT Cahz Teknologi Inovasi I Purwokerto - Spearheaded frontend web development for the "Rukun" application using modern JavaScript frameworks (Vue.js/Nuxt.js). - Designed and implemented interactive dashboards for complex data visualization, user management, and profile management. - Engineered secure authentication workflows, including login, registration, password reset, and route protection using middleware.	May 2025 - July 2025
Laboratory Assistant - Software Construction Programming Lab I Telkom University Campus Purwokerto - Guided students through software design, development, testing, and maintenance processes. - Conducted on-site problem-solving and ensured all operational procedures complied with established organizational standards. - Mentored students on implementing proper coding practices, debugging, and conducting rigorous code reviews.	Feb 2025 - June 2025

ORGANIZATION EXPERIENCE

Staff Logistic And Operation - Todays 2025 BEM KEMA Telkom University Purwokerto - Orchestrated logistics and operational activities to ensure the seamless execution of daily programs and large-scale events. - Coordinated with internal teams and external vendors to manage schedules, resources, and inventory. - Enforced industry standards by promoting the use of clean code principles, version control systems, and systematic technical documentation.	June 2025 - Sep 2025
Staff Sponsorship - TUPEC E-Sport Event UKM Esport Telkom University Purwokerto - Spearheaded the acquisition of corporate sponsorships by pitching structured funding packages (Silver, Gold, Platinum, and Diamond) to support the TUP E-Sports Championship Season 4. - Negotiated and formalized Memorandum of Understanding (MoU) agreements with external partners, ensuring mutually beneficial terms and compliance with event guidelines. - Coordinated cross-functionally to guarantee the accurate execution of sponsorship deliverables, including strategic logo placements, live stream adlibs, and promotional video broadcasts during the event.	Sep 2025 - Nov 2025

PROJECT EXPERIENCE

Frontend Developer - “RUKUN”

May 2025 - July 2025

Internship Project | PT Cazh Teknologi Inovasi

- Architected and developed the client-side of the application utilizing Vue.js and Nuxt.js, focusing on modular components to ensure scalability and maintainability.
- Integrated complex RESTful APIs to render dynamic data sets, enabling seamless synchronization for the administrative dashboard and user profile management.
- Configured advanced state management and route middleware to handle secure, multi-level user authentication flows across the platform.

Quality Assurance & Tester - “PUSON” Posyandu untuk stunting online

March 2025 - Sep 2025

Academic Project | Telkom University

- Developed and executed comprehensive test plans and test cases to identify software defects, ensuring the platform met all functional and business requirements..
- Conducted rigorous UI/UX and system testing to guarantee a seamless, accessible, and user-friendly experience for the online stunting monitoring application.
- Documented system anomalies systematically and collaborated closely with the software development team to track, troubleshoot, and resolve critical bugs effectively.

CORE SKILLS

- **Technical:** Web Development (Nuxt.js,Next.js, PHP, Vue.js), Machine Learning, Data Analysis & Data Science, Data Visualization, Generative AI & Cloud (AWS), Data Science, Clean Code Principles, Version Control (Git).
- **Soft Skills:** Teamwork, Problem-Solving, Effective Communication, Cross-functional Coordination, Inventory Management.

ADDITIONAL INFORMATION

- **Languages:** English, Indonesian.
- **Certifications:** Belajar Dasar Data Science By Dicoding, Belajar Dasar AI by Dicoding, EPrT (English Proficiency Test) - Telkom University
